

The Homeward Project Trauma-informed Training

*A Trauma-Informed Approach to working with
Children and Young People.*

Equip your Kids and Youth Ministry staff and volunteers with understanding and strategies to help create trauma-informed spaces and programs that are safe and inclusive for all children and young people.

This training will equip your team to:

- Grow in knowledge of the impact that past experiences can have on a child's brain
- Understand the need behind the behaviour
- Have practical strategies to build connection and meet the underlying need
- Reflect on how to effectively serve children from hard places and their families in a church environment

The training includes a five part video series, Facilitator Guide and Participant Booklets.

Part 1. The 'why'

Part 2. The brain

Part 3. The power of relationship

Part 4. Behaviour

Part 5. Toolkit: tools & techniques for connection

Part 6. Scenarios: putting the pieces together

The Homeward Project team will provide training and support for you to facilitate the training and work with you ongoing to build a holistic ministry of Out-of-Home Care within your church.

Request the Trauma-Informed Training [here](#).

The Homeward Project is a movement of Australian Christians committed to better outcomes for those involved in the Out-of-Home Care system. Access key resources, ideas and inspiration to build a local ministry within your church and community that makes a difference for children and families at homewardproject.org
